

May the 4th, 2017

To whom it may concern,

The field of information security has seen an exponential growth in the past years, and Puerto Rico is not an exception. As part of our mission OC, Inc. organized the first security conference in Puerto Rico: **Security B Sides Puerto Rico** on April 2013 with great success. Now we moving toward the fifth installment of #BSidesPR on October 6, 2017. This event is focused on education, professional growth and community building. To make an event of this magnitude OC, Inc. requires the help of both academic, government and business alike.

As an organization, OC Inc. has proven that *Security B Sides Puerto Rico* has the power to focus the attention of the InfoSec community and leverages our strategic position as bridge between Spanish and English information security communities. We have the talent and the momentum; and at this time our educational events have exceeded expectations and participation.

We (OC) have proven that we have the commitment to the information security industry, community and maintain the balance between both. This is why we seek to repeat for the fifth time, Security B Sides Puerto Rico on October 6th, 2017 with greater success but for that we need your help.

Sincerely,

José L. Quiñones, BS
Co-Founder & President
